

Contents

490 PCs & Portables

Entry-level to high-end PCs, notebooks and PDAs.

491 Printers & Scanners

Inkjet, lasers, photo printers and multifunction devices.

492 Peripherals

From digital cameras to modems, monitors to storage, graphics and sound cards.

493 Software

The greats of software. Classic products like Access 97, CorelDraw and Norton Antivirus.

496 Faxback

Instant access to all *PCW* reviews and features, through your fax machine.

CREDIT CARD PROTECTION

Always pay by credit card when ordering goods valued in excess of £100, thereby ensuring maximum protection in the event that an advertiser ceases to trade prior to such goods actually being received.

All the best buys are here

Sometimes you just want to know the names of the best products, when they were reviewed, how much they cost and where you can get them. That's where our no-nonsense buyer's guide comes in.

Over the following five pages we've picked out the outstanding PCs, peripherals and software packages that we can recommend without hesitation. To make it even easier, we've included the current manufacturer's contact number and price (including VAT), as well as details of when and where we reviewed the product. For the full review, why not check out *PCW* on CD-ROM? Updated quarterly, *PCW* on CD-ROM contains the full editorial from the past 24 issues, in searchable Adobe Acrobat format — it even comes with a copy of Acrobat for viewing, searching and printing. Each CD costs just £9.95 including postage and packing, or £8.96 for subscribers. **Call 01795 414870** to order your copy or turn to **PCW Reader Offers (p262)** for further details. If you can't wait for the next quarterly CD, try out our **Faxback service (p496)** which provides 24-hour access to your favourite features and reviews.

BOBBY PICKERING

Editor

Personal Computer World Buyer's Charter

Anthony George, our Customer Services Manager, is here to help you if things go wrong, if you have an enquiry or complaint about a supplier advertising in this magazine, or have encountered problems as a result of goods purchased.

Write to him with details of the complaint, together with your full contact details, and he will endeavour to assist you.

Anthony George
Customer Relations Department
VNU Business Publications
VNU House, 32 - 34 Broadwick Street
London W1A 2HG

MOPS — Buyers Charter

When you order goods as a *private* individual reader from a UK supplier's advertisement in *Personal Computer World* and pay by post in advance of delivery to that Mail Order Advertiser who subsequently ceases to trade and goes into Liquidation or Bankruptcy prior to delivery of such goods, you may, under the 'Buyers Charter', qualify for compensation, providing:

1. You have not received the goods or had your money returned.
2. You have followed the *Personal Computer World* guidelines when placing your order.
3. Have taken all reasonable steps to effect delivery or refund.
4. You have retained irrefutable proof of purchase, for verification purposes:
 - a) A copy of the original advertisement from which the goods were ordered.
 - b) Comprehensive proof of payment.

GUIDELINES

Claims must be submitted so as to arrive 'NOT EARLIER THAN TWENTY EIGHT DAYS AND NOT LATER THAN THREE MONTHS' from the official on-sale date of the magazine. Claims must be submitted to the Customer Services Manager IN WRITING, summarising the situation and lodged strictly within the time schedule stated. *Claims received outside this period will not qualify for consideration for compensation under the 'Buyers Charter'.*

Once a supplier who has advertised in this magazine has become subject to either Liquidation or Bankruptcy proceedings and upon completion of all winding-up procedures, *Personal Computer World* guarantees to expeditiously process those *private* individual readers' claims made and submitted, in accordance with those procedures outlined, up to the following limits.

- a) £2,000 in respect of any claim submitted by one Private Individual Reader.
- b) £100,000 in respect of all advertisers so affected in any one year.

These sums define the Publishers maximum liability under the scheme, and any additional payments above and beyond these thresholds will be entirely at the Publisher's discretion.

As soon as legal confirmation that a state of liquidation or bankruptcy exists, the processing of claims will immediately commence. If, however, assets are available and the receiver/liquidator appointed confirms that an eventual payment will be made by way of a dividend, all claims under the 'Buyers Charter' will be subject to re-processing and will take into account any shortfall which may then exist. Payments under the scheme will also take into consideration the obligations and liabilities of other interested parties such as credit card and/or insurance organisations etc.

EXCEPTIONS

This guarantee only applies to advance postal payments made by *private individuals in direct response for goods itemised/illustrated in display advertisements*. It does not cover goods ordered from advertising Inserts or Cards, classified advertisements or MicroMart, or Catalogues obtained from, or supplied by, any advertiser regardless. *Similarly, protection does not exist in relation to purchases made as a result of reviews and/or editorial comment.* The 'Buyer's Charter' is designed to safeguard the *PRIVATE* individual reader. It does not provide protection to any companies, societies, organisations, unincorporated bodies or any other commercially orientated outlet of any description. Neither is cover provided for orders placed from, or to, any overseas suppliers or for goods purchased for resale.

CAVEAT EMPTOR

Readers are reminded that the Mail Order Protection Scheme was solely implemented to provide protection to the private individual when goods are ordered 'Off the Page' and paid for by post. *It was not designed for, nor will it offer any protection, in the event whereby goods are purchased via the Internet.*

DISCLAIMERS

Readers are reminded that the opinions expressed, and the results published in connection with reviews and/or laboratory test reports carried out on computing systems and/or related items are confined to, and are representative of, only those goods as supplied and *should not be construed as a recommendation to purchase*. Whilst every precaution is taken to ensure that reliability and good business practices prevail, the Publisher cannot be held responsible for the overall trading activities of any supplier referred to, or advertising within, this publication.

DESKTOP PCs

Due to the fast moving nature of the PC industry, we can only recommend particular PCs in the month we have seen them. Prices change almost weekly as component prices from third-party suppliers fluctuate according to availability. So, for this month's best PC buy, for instance, look at the group test on p128. It always pays to take a little care when buying a PC, or in fact any hardware or software. For PCW's guide to buying direct see p488. And don't forget to use the PCW order form. Everyone's ideal PC will have a different mix of components, with gamers needing a very good 3D graphics card, probably a 3D sound card and excellent speakers, and business users will need a good monitor and plenty of RAM.

ENTRY-LEVEL PCs

Budget-conscious buyers might consider choosing a non-Intel processor like an AMD. But be aware that if you choose a Socket 7 chip you will only be able to upgrade to an AMD processor in future. If you go for a Slot 1 processor, specify a motherboard with a BX chipset, which will allow for greater upgrading options in the future. Many of the Celerons are now only being sold in Socket 370 format, so check what processor format you will get when you order. We would recommend the following specification:

- AMD K6-2 350 or Intel Celeron 366 processor
- 32Mb RAM
- 4Gb hard drive
- Graphics card with 8Mb video RAM
- 15in monitor
- CD-ROM drive

Expect to pay between £499 and £599 (ex VAT) for this configuration, but you may have to pay extra for a sound card and speakers or a modem. However, if you have a little extra cash you will get a much better machine for £680 (ex VAT) — see our May '99 issue.

MID-RANGE PCs

In the mid-range, around £1,000 (ex VAT) will get you a good all-round PC. The introduction of PIII has turned PII into a mid-range processor, both on price and performance. However, the stunning result of the K6-III, and its low price, make it worth serious consideration.

Look for a minimum of:

- Intel PII or AMD K6-III 400MHz processor
- 128Mb RAM
- 8Gb hard disk
- Good 3D graphics card with 16Mb video RAM
- 17in monitor
- CD-ROM drive
- Sound card, speakers, 56K modem

For an in-depth look at K6-III, see this month's group test on p128.

HIGH-END PCs

If you are after a state-of-the-art machine, be prepared to spend around £1,500 (ex VAT). What you require at this price will be specific to your needs, depending on how you intend to use the machine. However, as a basic specification we would want:

- PIII 550
- 128Mb 100MHz RAM
- 16Gb hard drive
- Good 3D graphics card with 32Mb video RAM
- 19in monitor
- DVD drive
- Sound card, speakers, 56K modem
- Bundled office suite

We will look at the PIII 550 in more detail in next month's PCW.

HIGH-END NOTEBOOK

Sony Vaio PCG F190

Designed to replace your desktop PC, Sony's Vaio F190 features a deliberately large keyboard and 14.1in TFT display. As standard it boasts built-in DVD-ROM and floppy drive, DV editing facilities and the muscle of Intel's fastest mobile chip, the 366MHz PII. Measuring 324 x 40 x 265mm and weighing 3.1kg, it excels as a power portable

MID-RANGE NOTEBOOK

Sharp PC-A150

Light and portable, this notebook has enough power to run your office apps, and a screen that is big and good enough to be used in presentations. It is robust, with a magnesium alloy casing. With its excellent keyboard and external floppy drive it could even be used as a desktop replacement.

PDA

Hewlett-Packard Jornada 820e

Fed up with ever-faster processors when all you need is a machine to take notes and check your email? The Jornada could be the answer to your prayers. You can work for a full day without fear of the battery dying and with an Intel StrongARM processor running at 190MHz, 16Mb RAM and an integrated 56K modem, it has everything you need when on the move. And its 8.2in STN screen with a resolution of 640x480 is large enough to see exactly what you're doing.

COLOUR INKJET

Hewlett-Packard DeskJet 895CXi

For all-round excellence you can't do better than the HP 895CXi. The quality of its output for both text and graphics is impressive given the swift speed at which they are produced. Even its 'econofast' mode could be used for vital documents, saving both time and ink. It takes a huge range of papers and replacing ink cartridges is a breeze.

COLOUR PHOTO PRINTER

Lexmark Photo JetPrinter 5770

For dedicated digital photographers, this printer is ideal, with a 1200x1200dpi maximum resolution and a slot each for direct access to CompactFlash and SmartMedia cards. There's no separate black cartridge bundled, although any standard black Lexmark cartridge will fit.

BUDGET LASER PRINTER

Samsung ML-5100A

Managing a steady 6.5ppm in our tests, this small printer included USB connection as well as conventional parallel. With 4Mb RAM as standard it can be upgraded to 32Mb at a later date.

PCW July '99, p98

Price £292.58 **Contact** Samsung 0800 521652 **Also Recommended** Kyocera FS-600 **Price** £299 **Contact** Kyocera 0118 9230660 (PCW February '99)

BUSINESS LASER PRINTER

Lexmark Optra K1220

It is rare that you find a printer which is both good value and produces exceptional-quality output, yet the Optra K1220 is just such a laser printer. With a rated speed of 12ppm it produces text in good time, but most of all its outstanding quality, both for text and graphics, puts it second to none amongst laser printers.

MULTIFUNCTION DEVICE

Hewlett-Packard LaserJet 3100

Good laser print quality from this quiet machine. It's intelligent enough to detect a document dropped into its feeder and it will launch an idiot-proof menu for scanning, copying and emailing. Fast, accurate OCR and 2Mb memory for incoming faxes when the paper supply is exhausted, make the 3100 an ideal multifunction device.

Faxback Service

**Missed a feature or a review?
Try our 24-hour faxback service.**

Updated every month, our easy-to-use Faxback service gives you instant access to a complete range of product reviews, features and workshops via your fax machine. To use the service, simply follow the instructions below. Calls are charged at 50p per minute at all times, with an average duration of four minutes.

Our service is available 24 hours a day, 365 days a year.
(The faxback service is not available outside the UK).

- 1** From the choices below, **select the article(s) you wish to receive**. Note the number of pages in the article.
- 2** Using the handset on your fax machine, **dial 09065 600632**. If you do not have a handset, press the fax machine's On Hook or Telephone button, then enter **09065 600632** on the keypad.
- 3** There will be a vocal introduction to the Faxback service which will ask you to enter the code of the article(s) you require. The voice will then ask you to **press the Start / Send** button on your fax machine.
- 4** The article(s) you have requested will then come through your fax machine.

IMPORTANT INFORMATION

For the faxback service to work correctly, you must be referring to the current issue of *Personal Computer World* and have your machine set to use tone dialling (you may need to switch your machine from 'pulse' to 'tone').

If you have any problems with the *Personal Computer World* faxback service, please call 0171 412 3795. This helpline is open from 9:00am to 5:30pm Monday to Friday and calls are charged at the standard rate.

PCW Purchasing Guidelines

There are several steps you can take to make sure the buying process is smooth and trouble free.

➤ **When you phone a supplier, make a note of name of person to whom you are speaking.** Note down any claims they make for the product in which you are interested, or any specifications they mention. If you are unsure that what they are offering is right for the task, then ask. Check what is included: for example, when buying a printer, are all cables and cartridges bundled in? Before you place an order for a PC, insist on being faxed or emailed a full specification, detailing all components and peripherals. Also, make sure that you get a warranty which suits your needs. If you need swift repairs, consider paying extra for an eight-hour repair service. Also make sure you understand what service you can expect to receive, including who pays for couriers if your machine has to be returned for repair.

➤ **When you place your order, use a credit card.** The Consumer Protection Act ensures that credit card purchases between £100 and £15,000 are covered. Check the address to which the goods will be sent. Often, if you buy with a credit card you can only receive the goods at the address on the card. If you are buying over the internet, make sure you are using a secure server, sometimes denoted by the prefix 'https'.

➤ **Set a delivery date, so you have some come-back if the goods are not delivered on time.** When the goods arrive, check the packaging before you sign for the goods, to guard against damage in transit.
