FEATURES

120 eCommerce

Creating a presence for your business on the web is a piece of cake. But can you make any money out of it? Terence Green shows you how to succeed in business online.

126 Service & Reliability Survey

In the biggest ever industry survey you told us your experiences with the best and the worst products and manufacturers. Our report covers everything, from how the products have performed over the years, to the technical support you received. Alana Juman Blincoe makes sense of the data.

156 Speech recognition

It's good to talk; so why not talk to your computer? Adele Dyer and Roger Gann test a range of software packages that will enable you to do just that.

The car's the star — but IT takes a leading role, too

p166

166 IT and Formula One

It takes more to win a Grand Prix than having Michael Schumacher in the driving seat. Paul Trueman meets the back-room boys who design the winning cars.

REVIEWS

NEW PRODUCTS

- 79 Evesham Vale Platinum II 450**
One of the first 450MHz Pentium IIs.
