

GROUP TESTS

134 £799 400MHz PCs

Budget-busting PCs. You don't have to spend a fortune to get storming performance from your system. Ajith Ram puts ten 400MHz Celeron machines in the starting blocks and sees which comes racing in first.

| 140 Impact Systems High Impact | 147 Strand 3D Plus |

160 Motherboards

Jump-start your PC by replacing your motherboard. It will boost your bus speeds and support faster components such as hard drives, memory and processors. Ian Robson tells you everything you need to know, including how to fit a new board, and picks the best boards for all the socket types from our group of 18.

| 164 Socket 370 motherboards | 176 Choosing and installing |

198 Digital Cameras

Forget processing and scanning — get a digital camera. With falling prices, features to rival film cameras and larger CCDs giving high-resolution images, they are *the* peripheral to own. David Fearon gets snap happy with ten zoom-lens cameras.

FEATURES

118 Synchronicity

Tony Dennis finds out how easy it is to have data at your fingertips, whether it's on your PC, PDA, your mobile phone or your wristwatch.

122 Small Business

Backing up is hard to do? Well, actually, no it isn't. Yet so many businesses fail to secure vital data. Dave Mitchell tells you why you should do it and the best ways to make sure it gets done.

128 Service & Reliability

Take part in our 1999 survey of the best brands to have the chance of winning great prizes.

130 Old PCs

Don't bin it. Save that PC! Susan Pederson takes recycling to heart and looks at a host of ways you can give your old PC a new lease of life.

182 Lotus Domino R5

Terence Green takes the lid off this latest workgroup solution with an in-depth look at Lotus Notes 5 and Domino Server.

188 Document Management & OCR

File your documents in the most sensible place — your PC. Roger Gann tests the best solutions for keeping on top of the paperwork, whatever the size of your business.
